Original Witness Complaint

Witness Identity: Withheld Upon Request

Occupation: Ranger of the North

Credibility Rating: Good

Date Submitted: 11 Halimath, Fourth Age 19

Witness Statement

While travelling south of Rivendell at dusk, I observed Lord Elrond standing alone near a pool of still water.

At first nothing appeared unusual.

The Lord of Rivendell remained motionless for several minutes while looking into his reflection.

I considered approaching him but I didn't want to interrupt his pondering.

Then something happened which I cannot adequately explain.

For a brief moment his appearance changed.

His hair appeared shorter.

Dark coverings obscured his eyes.

His clothing became unlike any garment I have observed among Elves, Men, Dwarves, or Wizards.

The figure retained Lord Elrond's general appearance, yet no longer appeared to be Lord Elrond.

The transformation lasted for a little less than a minute.

As soon as Lord Elrond returned, and began walking away from the pool, I immediately departed the area.

Investigator Follow-Up

Question:

Do you believe Lord Elrond intentionally altered his appearance?

Witness Response:

I do not know.

I only know that what I observed was not natural.

I have travelled Middle-earth for forty years.

This was different.

Question:

Did Lord Elrond say something or hold a strange object at the time?

Witness Response:

No.

He was just standing there like one often does, but all of the sudden he changed.

Composite Sketch Development

Following review of the witness testimony, court illustrators were instructed to produce two visual references.

Exhibit A

Official Rivendell Portrait

Subject:

Lord Elrond Half-elven

Source:

Royal Archives of Rivendell

Description:

- Long dark hair
- Elven attire
- Clean facial profile
- Calm expression
- No eyewear observed

Exhibit B

Witness Reconstruction

Subject:

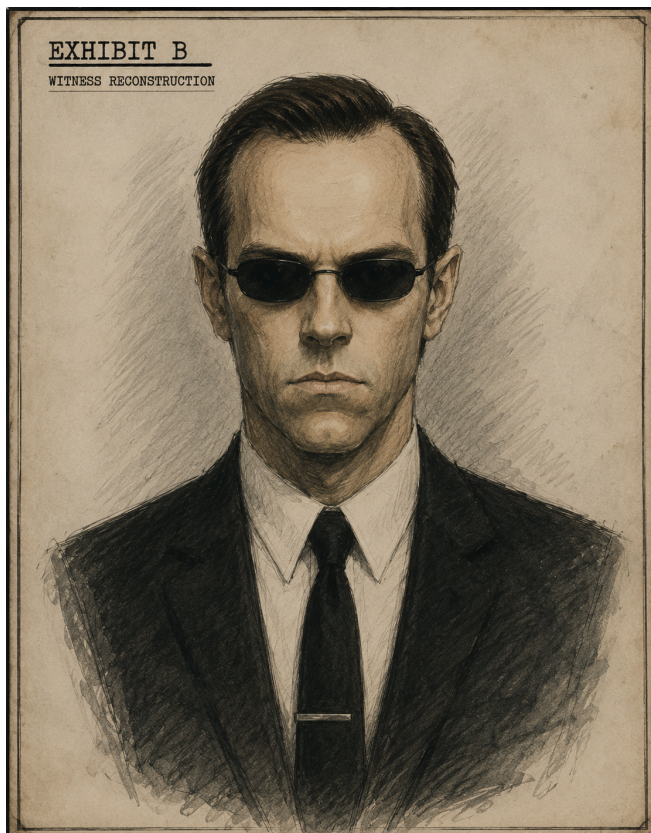

Unknown Individual

Source:

Anonymous Ranger Testimony

Description:

- Short, dark hair unlike the customary appearance of Lord Elrond.
- Human-shaped ears unlike the customary appearance of Lord Elrond.
- Black and white clothing of unknown origin.
- Black coverings obscuring both eyes.
- Expression described as cold, emotionless, and unnatural.
- Body structure, facial proportions, and posture closely matching Lord Elrond.
- Appeared to be the same individual, yet somehow not the same individual.

Comparative Findings

Investigators noted several similarities between Exhibit A and Exhibit B.

Shared characteristics include:

- Facial proportions
- Jaw structure
- Nose profile
- Brow placement

Investigators further noted that the witness reconstruction bears a strong resemblance to the individual described in separate testimony provided by detainee DL-0001 (Sauron).

Preliminary Assessment

At present there is insufficient evidence to determine whether:

1. Lord Elrond altered his appearance through magical means.
2. The witness misidentified another individual.
3. The event was caused by external influence.
4. The witness briefly observed the individual referred to elsewhere in this case as "Agent Smith."

Further investigation recommended.

Analyst Note

While the undersigned investigator does not believe shape-shifting to be common among Elves, neither does the undersigned investigator possess an explanation for why two independent sources have now described what appears to be the same individual.
