

WHITE COUNCIL INTELLIGENCE DIRECTORATE

GENETIC LINEAGE ANALYSIS REPORT

Case Number: WCID-TA-3019-042

Document Number: GLA-05

Classification: CONFIDENTIAL

Prepared By: Bureau of Biological and Genealogical Verification

Date: 21 Halimath, Fourth Age 19

Purpose of Examination

At the request of the White Council Intelligence Directorate, a genetic comparison was conducted to determine the biological relationship between:

Subject A: Lord Elrond Half-elven

Subject B: Lady Arwen Undómiel

The examination was performed in response to allegations suggesting that Lord Elrond may not be a native inhabitant of Middle-earth.

Sample Collection

Subject A — Lord Elrond

Sample Type:
Hair Follicle

Source:

Hair recovered from the personal effects of Lord Elrond by the Royal Grooming Office of Rivendell.

Chain of Custody:

Verified

Subject B — Lady Arwen Undómiel

Sample Type:

Hair Follicle

Source:

Hair recovered from the interior lining of Queen Arwen's ceremonial crown.

Chain of Custody:

Verified

Genetic Analysis

A total of 24 hereditary markers were examined and compared.

Results indicate:

- Complete compatibility with a direct parent-child relationship.
 - No evidence of substitution, duplication, or unrelated ancestry.
 - No evidence suggesting artificial construction, replication, or external manipulation.
 - Genetic signatures consistent with documented Half-elven lineage.
-

Ancestral Classification

Subject A

Species Classification:

Elven

Verified Lineage:

House of Eärendil

Genetic Origin:
Middle-earth

Subject B

Species Classification:
Elven

Verified Lineage:
House of Eärendil

Genetic Origin:
Middle-earth

Findings

The probability that Subject A is the biological father of Subject B exceeds **99.9999%**.

No anomalies were identified.

No contradictory genetic evidence was identified.

No evidence of extradimensional origin was identified.

Conclusion

Laboratory findings support the conclusion that Lord Elrond Half-elven is the biological father of Lady Arwen Undómiel.

The examined samples are fully consistent with known genealogical records maintained by Rivendell and the Reunited Kingdom.

Assessment Outcome

Biological Relationship: Confirmed

Parentage: Confirmed

Extradimensional Origin: Not Supported by Available Evidence

Recommendation: Retain for case file.

Laboratory Note

The Bureau of Biological and Genealogical Verification was unable to identify any hereditary marker associated with entities known as "Agents," "Programs," or "Agent Smith."

Investigators are advised to seek evidence of such claims through means other than genetics.
